

Click Holdings Reports Strong Growth in Silver Economy Segment, 100% Increase in Service Hours

2026-03-13 · Press Release · Operations

Hong Kong, March 13, 2026 (GLOBE NEWSWIRE) -- Click Holdings Limited (“Click Holdings” or “Click” or “we” or “us”, NASDAQ: CLIK) and its subsidiaries (collectively, the “Company”), Hong Kong’s only Nasdaq-listed leader in human resources and senior care solutions, today announced robust operating growth in its silver economy and premium senior care business for the second quarter of the 2025/26 financial year (October to December 2025).

The Company recorded a 100% year-over-year increase in total service hours delivered in the silver economy segment, comparing the latest quarter from October 2025 to December 2025 to same period in 2024. Additionally, the number of Community Care Service Voucher (CCSV) cases grew by 34% over the same period. These impressive results directly align with the Company’s strategic focus on expanding premium senior services under our flagship Care U brand, including one-on-one private nursing, medical escort services, rehabilitation, and comprehensive home-based elderly care.

This momentum builds on the Company’s proactive investments in the CCSV business, significant scaling of private nursing capabilities, and development of holistic home-based elderly care offerings—core elements of Click’s integrated growth strategy in the silver economy.

“Hong Kong’s rapidly aging population—one of the most severe globally, with the proportion of residents aged 65 and over already exceeding 20% and projected to rise further—combined with the city’s world-leading per capita wealth, continues to drive strong demand for premium and reliable senior care,” said Jeffrey Chan, CEO of Click Holdings. “Our recent performance demonstrates the effectiveness of our strategy: by leveraging our AI-powered platform, expanding talent pool, and CCSV accreditation, we are delivering high-quality services that seniors and families trust. These results affirm our direction and fuel our confidence in the silver economy’s potential to deliver substantial and sustainable growth for CLIK.”

The Company remains committed to heavy ongoing investment in this high-growth segment, including talent development, technology enhancements, service infrastructure and strategic partnerships.

With these strong operating indicators, Click is well-positioned to capture increasing market share in premium senior nursing, preventive healthcare, lifestyle services, and medical referrals under our flagship brand Care U. The silver economy business is expected to become a major contributor to the Company’s long-term revenue growth and value creation.
